Instructions to view .mobi file using the Kindle app

.mobi file to be used on Kindles or devices using the Kindle app

Please note, these instructions are a guide only. Your device and device set-up may differ. If you are having trouble downloading or viewing the file, please refer to your manufacturer's instructions for opening this type of file.

Please be patient when downloading the file; to maintain the quality of the images throughout the book, the file size is quite large (244 MB) and, depending on your internet speed, it may take a while to download.

To open .mobi file on iPhone or iPad

1. Download or save the .mobi file to your iPhone or iPad.
2. Start by opening the Kindle app. If you do not have the Kindle App you can download it from the App Store. The file may not load correctly unless the Kindle app is opened first.
3. On your iPhone/iPad, navigate to the downloaded file.
4. Hold down the icon for the .mobi file attachment. A menu should open which says 'Open In'. Select 'Kindle'.
5. The book should now open in the Kindle app.

Alternatively:
1. Download or save the .mobi file to your iPhone or iPad.
2. On your iPhone/iPad, navigate to the downloaded file. Tap on the file. If a screen appears and you can see 'Copy to Kindle', tap 'Copy to Kindle' and the book should appear in your Kindle app.

Alternatively:
1. Download or save the .mobi file to your iPhone or iPad.
2. On your iPhone/iPad, navigate to the downloaded file. Tap on the file. If a grey screen appears and you can't see 'Copy to Kindle', click on the 'share' icon in the bottom left hand corner and scroll through the menu until you see 'Copy to Kindle'.
3. Tap 'Copy to Kindle' and the book should appear in your Kindle app.

To open .mobi file on Android device

1. Download or save the .mobi file to your Android device.
2. On your Android device, go to your home screen and open your 'File Manager' or 'File Explorer'. *It's called 'Files' on some Android phones.*
3. In your 'File Manager', locate the .mobi file you downloaded.
4. Select, 'Copy' your .mobi file, and then 'Paste' it to your Kindle folder within your file directory (not directly into the app). *If you are not seeing the Kindle folder, it may be that your phone settings are switched off for downloading files to the Kindle app, if you are using phone data and not wifi. You can either connect to wifi or change the setting on your phone.*
5. After pasting your .mobi file to the Kindle folder, close your file manager and then open your Kindle app. You should see the file. *If you don't see it, go to your Kindle app's menu then press 'Sync'. If pressing 'Sync' does not work, and you still do not see the .mobi file, restart your Android and check the Kindle app again.*

To open .mobi file on Windows PC

1. Check that you have 'Kindle for PC' installed on your computer.
2. Download the .mobi file to your computer and browse to the file location.
3. Double click or Right click the .mobi file and select Open with 'Kindle'.
   If you receive an error when opening the file, check your Kindle app. The file might already be in your Kindle library.

To open .mobi file on Mac

1. Check that you have 'Kindle for Mac' installed on your computer.
2. Download the .mobi file to your computer, saving in the 'My Kindle content' folder (Library > Application support > Kindle > 'My Kindle content')
3. Open 'Kindle for Mac'. You should now be able to see, open and read the .mobi eBook.

To open .mobi file on Kindle device (using a computer)

1. Download or save the .mobi file to your computer.
2. Connect your Kindle to your computer using a USB cable.
3. After connecting, you will see your Kindle as a folder or drive. You can 'Drag and Drop' or 'Copy and Paste' the .mobi file into the Documents folder on Kindle drive or Kindle folder.
4. Safely remove the USB cable when the activity indicator on your Kindle stops flashing, by selecting 'Safely remove mass storage' (Windows PC) or 'Eject' (Mac).
5. You should now be able to find the .mobi eBook in the Kindle Library on your Kindle.
